

2020 NITSL VIRTUAL WORKSHOP VENDOR PARTICIPATION AND SPONSORSHIP OPPORTUNITIES

Introduction:

Nuclear Information Technology Strategic Leadership (NITSL) is a not for profit corporation that was formed to coordinate a consistent direction in industry wide initiatives and serve as an interface for communications with regulators and industry groups.

NITSL is a topical area within the Institute of Nuclear Power Operations (INPO) and receives their primary governance and oversight through INPO and the Nuclear Strategic Issues Advisory Committee (NSIAC).

The focus areas of the NITSL planned direction support the following four core process initiatives distinct to nuclear power generation:

- Software Quality Assurance (SQA)
- Cyber Security for Nuclear Power Reactors
- Digital Control Systems
- Infrastructure and Applications

The NITSL Executive Committee (EC) supports a Standing Committee for each of these core initiatives. Each Standing Committee has a Chairperson and an EC Sponsor. The Standing Committees are expected to stay abreast of emergent regulations and best practices with the goal of providing useful products and a forum for industry wide feedback for the NITSL membership.

NITSL conducts one educational workshop per year.

Due to COVID-19 and for the safety of our members and vendors, NITSL will be hosting a virtual conference this year. We recognize the value you provide to the Nuclear Industry and we look forward to continuing our partnership during our July virtual meeting.

Vendor Participation:

These are unprecedented times, and while there is no substitute for the networking that takes place during our in person conference, we have great workshop planned and by participating for a nominal fee you may meet your next client virtually.

Conference Fee: \$250.00 per vendor company. First individual from the vendor company will register as primary vendor and subsequent registrations should register as extra vendor attendees and there will be no charge for extra vendor attendees from the same company. Due to limited seats in our sub-committee sessions, there is a limit of 5 seats for each participating vendor company.

The cost to participate has been greatly reduced, and we are offering some innovative opportunities for you to connect with utility members during the conference and for the next year.

- Your company logo, website link and 70 word company description will be placed on the public facing NITSL website and the NITSL Sharepoint,(members only section of the website), site for one year
- You have the opportunity to provide a 1-2 minute video which we will upload to the NITSL site for 3 months
- Vendor recognition during the conference
- Opportunity to set up a chat room during the conference week which we will promote to our members.
- Contact information of all member attendees will be sent to registered vendors

Vendor Raffle

In order to encourage visits to your chat room, this is a voluntary opportunity to engage members.

Vendor Registration

An invitation to register for the workshop will be sent to all vendors on NITSL's vendor distribution list. If you are interested in participating, but have not received an invite, please contact: cathy.przyjemski@nitsl.org

- After you have registered please send your company logo and description at least two weeks prior to the workshop to cathy.przyjemski@nitsl.org
